

My name is Shawna Ewing nee Hillman, I've

Rick Densmore since 2014 when my husband and I moved from Lansing where I graduated from MSU with a bachelors in Animal Science. We met visiting his grandmother Janice Gra I believe I was helping move furniture. He has always with anything I needed while at his house that he share his grandma and mother. He takes wonderful care of his and pays to have his moms vehicles repaired. Rick Loves his Mitten's and I have never known of him to call off we awhile there, probably most of a Summer I was over times a week for vehicle repairs and moving things such as chicken coop.

Rick has always come across as quiet and kind. He really ever talk to my kiddos much but would get the when asked and help with his mom when cleaning up were done. He didn't have many lengthy conversations but I to be thoughtful when we spoke. Slow to respond and chose with care. He has an honorable discharge from the army and worked that I know of. All the while caring for his family. may not have a huge impact on the community it has a on them. I hope you take my recollections and knowledge of character into account when determining sentencing.

Sincerely, Shawna Ewing
